Dear shareholders

Net asset value per share up 3.1 per cent

Castle Private Equity's net asset value (NAV) per share grew by 3.1 per cent to USD 17.11 versus the value per March 2013, after deduction for a May 2013 distribution of USD 0.77 per share.

Equity markets supported by rerating rather than earnings growth

Private Equity valuations in the second quarter of 2013 remained partly driven by the strength of equity markets, on the back of quantitative easing activities by the US Federal Reserve and other central banks. Rather than worrying about a collapse of the Euro and a slowdown in Chinese growth, investors' emphasis shifted to the anticipation of a recovery led by the US.

Successful realisations supported by positive currency effects boosts net asset value during the second quarter

Castle Private Equity's mature and broadly diversified portfolio again demonstrated its quality, having successfully realized a number of investments above their previous carrying values. These exits had a positive impact on the NAV and were responsible for the bulk of NAV growth over the quarter. Substantial exits from the portfolio included the partial realization of India's Tabungan Pensiunan Nasional Bank by TPG Capital as well as the final sale of AS Starman, the largest cable TV company in Estonia by Bancroft Private Equity. Valuation developments within the portfolio on the basis of strategic, financial and operational initiatives were the other key value creation driver. The strengthening of the Euro against the US Dollar led to over USD 3 million of positive valuation adjustments in US Dollars in the quarter.

Support from currency movements

Castle's net liquidity position strengthened further during the review period and the portfolio continues to be significantly cash flow positive. The Company paid USD 10 million in capital calls for fund investments. This capital was mainly used to support add-on acquisitions and some new investments. On the other hand, distributions from successful realizations and in some cases dividend payments amounted to USD 38 million and exceeded capital calls by almost USD 30 million over the past three-month period. This resulted in a net cash position (after deduction of liabilities) of USD 33 million.

Share price and net asset value in US Dollar since inception

Strong distribution activity benefit net liquidity position

As announced in the first quarter report of 2013, the shareholders on their annual general meeting on 15 May resolved a distribution of general legal reserves from capital contributions of USD 0.77 cents per share. The distribution of USD 28.6 million in total was paid out on 23 May.

Evaluating alternative options for Castle's share buyback programme

On June 3rd Castle Private Equity launched its 2013–2014 share buyback programme of up to a maximum amount of 15.55 per cent of the issued share capital of the company. As a consequence of Switzerland's recent amendments to its stock exchange legislation which affects the way share buybacks are implemented, Castle Private Equity was advised to limit its daily volume of share repurchases to 9,500 shares. Castle Private Equity's Board of Directors is currently analysing other alternatives. No decision has been taken for the time being.

Yours sincerely,

LGT Private Equity Advisers AG

Roberto Paganoni Hans Markvoort

¹⁾ Deemed distributions and account reclassification – when a general partner determines to retain and use distributable cash for a future contribution, the amount of such cash will be treated as a non-cash contribution and distribution. Account reclassification is required when such a deemed distribution is reported by the general partner.

²⁾ In kind distributions – a distribution of marketable securities instead of a cash distribution.

³⁾ Revaluation of foreign currency positions – as at every month-end the Group revalues the cumulative return of capital amount for foreign currency investments based on the average paid-in capital exchange rate. The resulting adjustment is booked as realised forex gain/(loss) on investments.

Notes to the unaudited consolidated financial statements

For the period ended 30 June 2013

(All amounts in USD thousands unless otherwise stated)

1. Organisation and business activity

Castle Private Equity AG, Pfäffikon ("the Company"), is a stock corporation established for an indefinite period by deed dated 19 February 1997. The Company's registered office is Schützenstrasse 6, CH-8808 Pfäffikon. The Company's business is principally conducted through two fully consolidated subsidiaries ("the Subsidiaries"); Castle Private Equity (Overseas) Ltd. ("the Overseas Subsidiary") and Castle Private Equity (International) plc ("the Ireland Subsidiary"). Since 4 September 1998 the shares of the Company have been listed in Swiss Francs on the SIX Swiss Exchange. On 21 January 2002 a listing in US Dollar on the SIX Swiss Exchange followed.

2. Basis of preparation

The accompanying consolidated interim financial statements of Castle Private Equity AG, Pfäffikon and its Subsidiaries (together the "Group") have been prepared in accordance with International Accounting Standard 34 "Interim Financial Reporting" and comply with Swiss Law and the accounting guidelines laid down in the SIX Swiss Exchange's Directive on Financial Report (DFR) for investment companies.

The consolidated interim financial statements of the Group have been prepared under the historical cost convention as modified by the revaluation of financial assets and financial liabilities held at fair value through profit or loss. The principles of accounting applied in the interim consolidated financial statements as per 30 June 2013 correspond to those of the annual report 2012, unless otherwise stated. The condensed consolidated interim financial information should be read in conjunction with the annual financial statements for the year ended 31 December 2012, which have been prepared in accordance with International Financial Reporting Standards (IFRS) formulated by the International Accounting Standards Board (IASB).

a) Standards and amendments to published standards that are mandatory for the financial year beginning on or after 1 July 2012

- Amendment to IAS 1, "Financial statement presentation" regarding other comprehensive income (effective 1 July 2012). The main change resulting from these amendments is a requirement for entities to group items presented in Other Comprehensive Income (OCI) on the basis of whether they are potentially recycled to profit or loss (reclassification adjustments). The amendments do not address which items are presented in OCI. This new standard did not have any effect on the Group's consolidated interim financial statements; and
- IFRS 13, "Fair value measurement", (effective 1 January 2013). This standard aims to improve consistency and reduce complexity by providing a precise definition of fair value and a single source of fair value measurement and disclosure requirements for use across IFRSs. The requirements, which are largely aligned between IFRSs and US GAAP, do not extend the use of fair value accounting but provide guidance on how it should be applied where its use is already required or permitted by other standards within IFRSs or US GAAP. This new standard did not have a material impact on the Group's consolidated interim financial statements.

b) Standards and amendments to published standards effective after 1 January 2013 that have been early adopted

- IFRS 10, “Consolidated Financial Statements”, (effective 1 January 2013). The new standard establishes principles for the presentation and preparation of consolidated financial statements when an entity controls one or more other entities. It supersedes IAS 27 “Consolidated and Separate Financial Statements” and SIC-12 “Consolidation – Special Purpose Entities” and is effective for annual periods beginning on or after 1 January 2013. The Group decided for early adoption in 2011; and
- IFRS 12, “Disclosure of Interests in Other Entities”, (effective 1 January 2013) applies to entities that have an interest in a subsidiary, a joint arrangement, an associate or an unconsolidated structured entity. The Group decided for early adoption in 2011.

c) Standards and amendments to published standards effective on or after 1 January 2013 that have not been early adopted

- IFRS 9, “Financial instruments”, (effective 1 January 2015). This is the first part of a new standard on classification and measurement of financial assets and financial liabilities that will replace IAS 39, “Financial instruments: Recognition and measurement”. IFRS 9 has two measurement categories: amortised cost and fair value. All equity instruments are measured at fair value. A debt instrument is measured at amortised cost only if the entity is holding it to collect contractual cash flows and the cash flows represent principal and interest. For liabilities, the standard retains most of the IAS 39 requirements. These include amortised-cost accounting for most financial liabilities, with bifurcation of embedded derivatives. The main change is that, in cases where the fair value option is taken for financial liabilities, the part of a fair value change due to an entity’s own credit risk is recorded in other comprehensive income rather than the income statement, unless this creates an accounting mismatch. The Group has yet to assess the full impact of this standard and has not yet decided when to adopt it.

There are no other IFRSs or IFRIC interpretations that are not yet effective that would be expected to have a material impact on the Group.

d) Segment reporting

IFRS 8 requires entities to define operating segments and segment performance in the financial statements based on information used by the chief operating decision-maker. The investment manager is considered to be the chief operating decision-maker. An operating segment is a group of assets and operations engaged in providing products or services that are subject to risks and returns that are different from those of other operating segments.

The sole operating segment of the Group is investing in private equity. The investment manager works as a team for the entire portfolio, asset allocation is based on a single, integrated investment strategy and the Group’s performance is evaluated on an overall basis. Thus the results published in this report correspond to the sole operating segment of investing in private equity.

3. Basis of consolidation

The consolidated interim financial statements per 30 June 2013 are based on the financial statements of the individual Group companies prepared using the same accounting principles applied in the consolidated financial statements for the year ended 31 December 2012.

The consolidated interim financial statements include all assets and liabilities of Castle Private Equity AG and its direct and indirect subsidiaries:

- Castle Private Equity (Overseas) Ltd., Cayman Islands
- Castle Private Equity (International) plc, Ireland

4. Investments and securities designated at fair value through profit or loss

As of 30 June 2013 the Group had subscribed interests in 119 (31 December 2012: 119) private equity investments vehicles (mainly limited partnerships), domiciled in the United States of America, the Cayman Islands, Europe and other jurisdictions. The total committed capital amounted to TUSD 1,397,805 (31 December 2012: TUSD 1,403,307) of which TUSD 1,285,168 (31 December 2012: TUSD 1,280,882) was paid in. The details of the investments are shown in the investment schedule on pages 16 to 20 and the investment movement schedule on page 14 and 15.

In general, movements in investments and securities designated at fair value through profit or loss, except for unrealised gains and losses, directly result in cash flows for the Group. In certain cases, such transactions may not be settled in cash. The consolidated statement of cash flows on page 8 shows the cash transactions in the portfolio and the cash flow reconciliation on page 9 shows the portfolio's non cash transactions and provides a reconciliation to the movement schedules.

5. Taxes

General: taxes are provided based on reported income. Capital taxes paid are recorded in other operating expenses.

The Group currently incurs withholding taxes imposed by certain countries on investment income and capital gains. Such income or gains are recorded gross of withholding taxes in the statement of comprehensive income. Taxes are shown as a separate item in the consolidated statement of comprehensive income.

Castle Private Equity AG, Pfäffikon: for Schwyz cantonal and communal tax purposes, the Company is taxed as a holding company and is as such only liable for capital taxes. All relevant income of the Company, including the dividend income and capital gains from its investments, is exempt from taxation at the cantonal and communal level. The result of the participation exemption relief is that dividend income and capital gains are almost fully excluded from taxation.

Castle Private Equity (Overseas) Ltd., Grand Cayman: the activity of the Overseas Subsidiary is not subject to any income, withholding or capital gains taxes in the Cayman Islands. Generally, the Overseas Subsidiary intends to conduct its affairs so as not to be liable to taxation in any other jurisdiction.

Castle Private Equity (International) plc, Dublin: the Ireland Subsidiary is not liable to Irish tax on its income or gain.
