Monthly report – November 2016

CastlePE's net asset value increased by 0.8 per cent during November. The positive monthly investment result was driven by valuation increases and exits throughout the portfolio, primarily the write up in valuation for One97 by SAIF III.

The positive investment result was reduced by the 3.2 per cent decrease in the Euro versus the Dollar during the month resulting in an unrealised currency loss of USD 2.4 million.

November's cash flows were once again very favourable: CastlePE received distributions of over USD 12 million, primarily driven by the realisation of JAC by Wynnchurch II and the partial realisation of public positions by SAIF III. Overall investment outflows in the month stopped at less than USD 0.6 million. Uncalled capital reduced to USD 51 million or 11.2 per cent of net asset value during the month.

During November, USD 2.8 million was used to purchase 188,297 shares on the current second line buyback program.
